

## Project Sprint Retrospective Notes

Team: 3

Sprint: 5

Date: 1 October 2020

Attended:

Scrum Master: Darren Lieu

Product Owner: Mohamad Ali

Development team: Benny Yang, Ben Cracknell and Mitchell Slavik

### 1. Things That Went Well

- *Communication between members*
- *Maintained good team morale*
- *View Specific booking for user*
- *View Specific booking for business as an employee*
- *Everything is done on time*
- *Created more testing*
- *Ben worked really hard to get react functionality working*
- *Darren kept track of what to do each day and made sure progress were made*
- *Mitchell always finished what was asked*
- *Benny helped out any team member when needed*

### 2. Things That Could Have Gone Better

- *Do more research outside of tutorials*
- *Could have attempted to implement more core functionality in this sprint*
- *Manage time better due to other assignment*

### 3. Things That Surprised Us

- *Trouble implementing code to retrieve specific object's variable*
- *Trouble with designing the way information is displayed for booking*
- *Yin leaving the course*

### 4. Lessons Learned

- *Further understanding of how Spring Boot and React work*

- *Further understanding of how the database works in the context of Spring Boot/React*
- *Further understanding of how the model interacts with the repositories when it comes to abstract classes in the context of object-oriented programming*

## **5. Final Thoughts**

*All in all, sprint 5 was successfully completed. We were able to adapt to the change to the group dynamic and manage to complete all work on time. All documentation is done to satisfactory standard, thus concluding this project*
