

Sprint Planning 5

Team: Group 3

Sprint: 5

Date: 1 October 2020

Attended:

Scrum Master: Darren Lieu

Product Owner: Mohamad Ali

Development team: Benny Yang, Ben Cracknell, Mitchell Slavik

1) Goal

Sprint Goal:

- Update and finalise product backlog
- Perform daily Scrum and documentation
- Keep Trello up to date
- Update unit tests to reflect refactored code
- Implement functionality that hasn't been implemented in sprint 4
- Refactoring of object variable to better implement object-oriented programming principles
- Implement "booking" function
- Display all booking functionality for all user types

2) Duration of the sprint 5

- The group is given 14 days to work through an estimated workload of 4 days. The team consist of 4 members with limited experience; thus, this is a rough estimate for sprint 5.

3) What is the team's vision for this sprint

- Gain new skills and be more adept with Spring Boot and React
- Implement all functionality stated in sprint goal section
- Refactor code to adhere to object-oriented programming

4) Estimation in story points

- Time: 1 day, scrum points 3: As a customer, viewing my current bookings is important to me so I can organise my schedule to cause no overlap.

- Time: 1 day, scrum points 3: As a customer, I only want to only see my own bookings so that I don't get confused with other people's bookings
- Time: 1 day, scrum points 3: As an employee I want to be able to see a list of customer bookings so that I can prepare for the booking
- Time: 1 day, scrum points 3: As a worker, I want to only see booking made to our business to avoid confusion
