Sprint Planning

Team: Group 3

Sprint: 2

Date: 19/08/2020

Attended:

Scrum Master: Darren

Product Owner: Mohamad

Development team: Benny, Ben, Mitchell, Yin

1) Goal

Sprint Goal:

- Implement all functionality that was in-complete in sprint 1, with the highest priority
- Implement Booking feature
- Implement creation of user, Employee and Business
- Do unit testing for all functionality implemented
- Update product backlog and prioritise backlog
- Perform daily Scrum and document
- Keep Trello up to date
- Finish off incomplete tasks from sprint 1
- To research on unit testing
- Connect the backend and frontend

2) Duration of the sprint

- The group is given 14 days to work through an estimated workload of 8 days. The team consist of 5 members with limited experience; thus, this is a rough estimate for sprint two.

3) What is the team's vision for this sprint

- To implement booking feature
- Implement creation of user, Employee and Business
- Gain new skills and be more adept with spring boots and react

4) Estimation in story points

- Time: 1 day, scrum points 3: As a worker, I want to be able to add new booking, in the event a user is encountering error the admin can assist the user by booking it.
- Time: 3 days, scrum points 5: As a new user, I want to be able to enter and save my details so that I can create a new user account for bookings
- Time: 3 days, scrum points 5: As a business owner, I want to be able to register my business so that I can expand my customer base
- Time: 1 day, scrum points 3: As a employee, I want to be able to register myself to a business, so that I can be associated to where I work
- Time: 3 days, scrum points 5: As a new user, I want to be able to sign up so that I can use the booking service
